

socketpp::BaseSocket

```
graph BT; A[socketpp::BaseSocket] <|-- B[socketpp::RawSocket]; B <|-- C[socketpp::UDP_RawSocket]; C <|-- D[socketpp::UDP_IP_RawSocket];
```

A class hierarchy diagram showing four classes in a vertical stack. At the top is 'socketpp::BaseSocket' in a solid box. Below it is 'socketpp::RawSocket' in a dashed box, with an upward arrow pointing to 'socketpp::BaseSocket'. Below that is 'socketpp::UDP_RawSocket' in a solid box, with an upward arrow pointing to 'socketpp::RawSocket'. At the bottom is 'socketpp::UDP_IP_RawSocket' in a solid box, with an upward arrow pointing to 'socketpp::UDP_RawSocket'.

socketpp::RawSocket

socketpp::UDP_RawSocket

socketpp::UDP_IP_RawSocket
