

socketpp::BaseSocket

```
graph BT; A[socketpp::TCP_IP_RawSocket] --> B[socketpp::TCP_RawSocket]; B --> C[socketpp::RawSocket]; C --> D[socketpp::BaseSocket];
```

The diagram illustrates a class hierarchy for socketpp. It consists of four rectangular boxes arranged vertically. The bottom-most box is labeled 'socketpp::TCP_IP_RawSocket'. An upward-pointing arrow connects it to the box above, labeled 'socketpp::TCP_RawSocket'. Another upward-pointing arrow connects 'socketpp::TCP_RawSocket' to a dashed rectangular box labeled 'socketpp::RawSocket'. A final upward-pointing arrow connects the dashed box to the top-most box, labeled 'socketpp::BaseSocket'.
